

*"The WINS Academy has changed some of my beliefs and attitudes specifically with regards to my responsibilities and the role that I have to play in Nuclear Security; the courses raised my awareness in several topics and provided me with new perspectives about the Nuclear Security field. This is why I encourage all students who want to develop their careers in Nuclear Security to start the WINS Academy."*

**Youness Esserhir El Fassi**  
University of Ibn Tofail, Morocco

## FOCUS ON

### WINS JOINS THE IAEA NUCLEAR SECURITY GUIDANCE COMMITTEE

We are delighted to announce that WINS membership of the Nuclear Security Guidance Committee has been approved by the IAEA. WINS is now an official observer of this Committee, which is composed of representatives from each IAEA Member State and oversees the publication and review of all Nuclear Security Series publications.

### SOUTH AFRICAN NEWSPAPER "THE NEW AGE" FEATURES THE STORY OF A WINS ACADEMY GRADUATE

Mr. Tebogo Kupi, a radiation protection officer at the North West University, is among the very first South African scientists to pass the WINS Academy certification programme in June 2015. Upon receiving his certification in Science and Engineering for Nuclear Security, Mr. Kupi said *"What I like best are the broader insights I gained from the Academy modules and the different perspectives represented, changing my beliefs about just safety at critical facilities to the need for integrating safety, security and safeguarding"*. Mr. Kupi will receive his certificate in person at a ceremony that will be organised in August 2015 on the margins of the International Nuclear Security Education Network (INSEN) in Vienna. Mr. Kupi's story is featured in the June 22, 2015 edition of the South African national daily newspaper *The New Age*. To read the article, [click here](#).

### 35 WINS BEST PRACTICE GUIDES

WINS has recently published his 35th Best Practice Guide on Effectively Integrating Physical and Cyber security. This Guide discusses a range of cyber-physical threats and suggests ways to protect against them by integrating physical and cyber security. Special attention is also placed on insider threat and measures that can be taken to protect against unwitting insiders. [Click here](#) to download this Guide.

In June, we also revised our Best Practice Guide on Managing Internal Threats. This guide considers the need for a balanced insider mitigation programme and discusses security practices and policies that can be implemented to help mitigate the insider threat. You can view the revised Guide [here](#).

## UPCOMING ACTIVITIES

### WINS Workshop on Executive Leadership for a Secure & Reliable Workforce
