

The advice given to me by the director of Integrated Nuclear Security and Safeguards (INSSL) to take the WINS Academy course will stand as one of the best in my career [...] The WINS Academy is a unique opportunity for experts around the world to broaden their knowledge base [...] I would encourage every practicing nuclear engineer to participate in the WINS Academy courses.

Dim Udochukwu Odera,
INSSL, University of Massachusetts Lowell, USA

FOCUS ON

UPDATE ON THE WINS ACADEMY

To date, almost 450 individuals from 65 countries are enrolled or have applied for the WINS Academy Nuclear Security Management Certification Programme, and participants from 12 countries have successfully passed the exams. In May, we have released our latest course, which focuses on Communicating with Civil Society, and we plan to release the course on Incident Response Management in June 2015. For more information or to apply for the WINS Academy, [click here](#).

INTERNATIONAL CONFERENCE ON COMPUTER SECURITY IN A NUCLEAR WORLD

WINS will attend the IAEA-hosted *International Conference on Computer Security in a Nuclear World: Expert Discussion and Exchange* that will take place in Vienna, Austria, on 1-5 June, 2015. Roger Howsley, WINS Executive Director, will make a presentation on Strengthening Synergies between Physical and Cyber Security Disciplines at 10:20am on Thursday, 4 June 2015, in Board Room A (M building, Vienna International Centre). On this occasion, WINS will publish its revised *International Best Practice Guide on Effectively Integrating Physical and Cyber Security* and we invite you to visit us at the WINS booth to pick up a free copy of this publication. In addition, WINS worked with the IAEA to develop an online, proctored test for the INSEN Textbook 22 on Cyber Security for Nuclear Security Professionals. This test will be realised coincident with the IAEA conference and will offer a voluntary opportunity for personnel to test and validate their understanding of the Textbook 22. For more information about this test, please [contact us](#). More information about the IAEA conference can be found [here](#).

INTERNSHIP OPPORTUNITY AT WINS

WINS is looking for a data analyst intern to support the implementation of WINS' Strategic Objectives for 2020, in particular by thinking creatively about ways to measure, evaluate and report the progress WINS and External Stakeholders are making against these predefined objectives.

For more information, [download the job description here](#). Please forward a brief cover letter and a CV in English, including your references to: info@wins.org, with the following reference in the subject field: *Data Analyst Internship/Your Name*.

UPCOMING ACTIVITIES

WINS Workshop on Nuclear Materials Control & Accountancy

June 16-17, 2015 | Vienna, Austria | [Announcement and Application Form](#)

External Event 56th Annual Meeting of the INMM

July 11 - 16, 2015 | Indian Wells, United States | [More information](#)

HIGHLIGHT

MAY SURVEY

This month, we invite you to think about the **Effective Integration of Physical Protection and Cyber Security**. [Click here](#) to access the questionnaire and for a chance to win a bursary worth £600 to complete the Academy Certification Programme of your choice for free!

WORDS FROM ACADEMY GRADUATES

"I had thought that nuclear security was a branch of the "general" security characterised by high walls, guns and guards which is provided in a nuclear organization. I had also thought that nuclear security should be the responsibility of the security forces and department [...]. But the insight provided by the WINS academy certification programme changed my mindset. Now I am more equipped and better prepared for a role in assuring greater security and safety at my facility". Anyaegbu Chad Chinaemelu, Graduate in Science and Engineering for Nuclear Security since May 2015.
